Rithea Cheng

Cybersecurity Student

About Me

I am a recent Computer Science graduate with a strong foundation in **IT support and systems administration**. My experience includes troubleshooting hardware and software issues, managing user accounts, configuring group policies, and maintaining secure Windows Server environments.

In addition, I have hands-on web development skills, which allow me to design and maintain functional websites with a focus on usability and performance.

Work Experience

Warehouse Assistant at Sidekicker New Zealand

Nov, 2021 - Present

maintaining the day-to-day operations of a warehouse, which includes tasks like receiving and processing stock, picking and packing orders, and managing inventory. They may also operate heavy machinery and ensure a clean and safe working environment.

Education

Bachelor of Computing System from Unitec Institue of Technology

2018 - 2021

Perform cybersecurity risk assessments, communicate results and findings to support risk management processes, and apply relevant security incident-handling techniques to solve complex security problems. You'll also develop an understanding of how to operate within the appropriate professional standards and best practice, both independently and as part of a team, and become highly skilled, innovative, and enterprising NZ workforce.
